**CONTRACT OF SHARED SERVICES**

1. For the purposes of this contract, the following terms shall be defined as follows:

"Designated filing Agent" shall mean the central place where all similar contracts for highway shared services are filed as agreed upon by all participating municipalities. It shall be, for the purposes of this Agreement, the clerk of the Chemung County Legislature.

"Municipality" shall mean any city, county, town or village within the County of Chemung, New York, which has agreed to be bound by a contract of shared services identical in terms and effect with this contract and has filed a certified copy of a resolution to that effect with the designated filing agent as defined herein.

"Contract" shall mean the text of this Agreement which is identical in terms and effect with similar agreements, notwithstanding that each such contract is signed only by the chief executive officer of each participating municipality filing the same, and upon such filing each filing municipality accepts the terms of the contract to the same degree and effect if each chief executive officer had signed each individual contract.

"Shared Services" shall mean any service provided by one municipality for another municipality that is consistent with the purposes and intent of this contract and shall include but shall not be limited to:

- a. the renting, exchanging, or lending of highway machinery, tools and equipment, with or without operators, conditioned on such other municipality providing a similar service, or a service of equal value, in exchange;
- b. the borrowing or lending of supplies between municipalities on a temporary basis conditioned upon the replacement of such supplies or conditioned upon the obtaining of equal value through the provision of a service by the borrower or by the lending of equipment by the borrower, the value of which is substantially equal to the borrowed supplies;
- c. the providing of a specific service for another municipality, conditioned on such other municipality providing a similar service, or a service of substantially equal value, in exchange.

"Superintendent" shall mean, the person or agent appointed or elected to serve as Commissioner of Public Works, Director of Public Works, or the Superintendent of Highways, or other comparable position that is the head of the department of highway or public works (as the case may be) of the municipality signing this Agreement.

and which has sent a notice of such filing to the officer signing this Agreement.

3. The undersigned municipality by this Agreement grants unto the Superintendent the authority to enter into any shared service agreement with any other municipality or other municipalities subject to the following terms and conditions.

- a. The undersigned municipality agrees to rent or exchange or borrow from any municipality any and all materials, machinery and equipment, with or without operators, which it may need for its public works purposes. The determination as to whether such machinery, with or without operators, is needed by the municipality shall be made by its Superintendent. The value of materials or supplies borrowed from another municipality under this Agreement may be returned in the form of similar types and amounts of materials or supplies, or by the supply of equipment or the giving of services of substantially equal value, to be determined by mutual agreement of the respective Superintendents.

- b. The undersigned municipality agrees to rent, exchange or lend to any municipality any and all materials, machinery, and equipment, with or without operators, which such municipality may need for its purposes. The determination as to whether such machinery or material is available for renting, exchanging or lending shall be made by the Superintendent. In the event the Superintendent determines that it will be in the interests of the City/County/Town/Village to lend to any other municipality, the Superintendent is hereby authorized to lend, rent or exchange to or with another municipality. The value of supplies or materials loaned to another municipality may be returned to the lending municipality by the borrowing municipality in the form of similar types and amounts of materials or supplies, or by the use of equipment or receipt of services of substantially equal value, to be determined by mutual agreement of the respective Superintendents.

- c. An operator of equipment rented or loaned to another municipality, when operating such equipment for the borrowing municipality, shall be subject to the direction and control of the Superintendent of the borrowing municipality in relation to the scope of the work to be completed. However, the method by which the machine is to be operated shall be determined by the operator.

- d. When receiving the services of an operator with a machine or equipment, the borrowing municipality's Superintendent shall make no request of any operator which would be inconsistent with any labor agreement that exists for the benefit of the operator in the municipality by which the operator is employed.

- e. The lending municipality shall be liable for any negligent acts resulting from the operation of its machinery or equipment by its own operator. In the event damages are caused as a result of directions given by the borrowing municipality to perform work, then the lending municipality shall be held harmless by the borrowing municipality.

- f. Each municipality shall remain fully responsible for its own employees, including salary, benefits and workers compensation.

4. The renting, borrowing or leasing of any particular piece of machinery or equipment, or the exchanging or borrowing of materials or supplies, or the providing of a specific service shall be evidenced by the signing of a memorandum by the Superintendent. Such memorandum

may be delivered to the other party via mail, personal delivery, email or by facsimile machine. In the event there is no written acceptance of the memorandum, the using of the machinery, the receipt of the materials or supplies or the acceptance of a service shall be evidence of the acceptance of the offer to rent, exchange or lend.

5. In the event any shared agreement is made without a memorandum at the time of receipt of the shared service, the Superintendent receiving the shared service shall, within five (5) days thereof, send to the provider a memorandum identifying the type, time and date of the acceptance of the shared service. In the event such shared service related to or included the receipt of any materials or supplies, such memorandum shall identify such materials or supplies and the time and place of delivery.
6. In the event a municipality wishes to rent machinery or equipment from another municipality or in the event a municipality wishes to determine the value of such renting for purposes of exchanging shared services of a comparable value, it is agreed that the value of the shared service shall be as set forth in the memorandum.
7. All machinery, equipment and employees of the lending municipality, for purposes of workers' compensation, general commercial liability, and inland marine insurance coverages, shall be considered the machinery and equipment of and the employee of the municipality owning the machinery and equipment, which municipality shall maintain appropriate insurance coverages (proof of which must be made available upon request with reasonable notice).
8. 9. Records shall be maintained by each municipality setting forth all machinery rentals, exchanges, borrowings or other shared services. Such records will be available for inspection by any municipality which has shared services with such municipality.
10. Any action taken by the Superintendent pursuant to the provisions of this contract shall be consistent with the duties of such official and expenditures incurred shall not exceed the amounts set forth in the municipal budget for highway purposes.

December of each year following the filing of the contract with the designated filing agent unless the governing body requests the submission of records at different times and dates.

If any provision of this Agreement is deemed to be invalid or inoperative for any reason, that part shall be deemed modified to the extent necessary to make it valid and operative, or if it cannot be so modified, then severed and the remainder of the contract shall continue in full force and effect as if the contract has been signed or filed with the designated filing agent with the invalid PROVISIONS modified or eliminated.
